Global Fest Japan 2023

グローバルフェスタJAPAN2023

2023 9.30 SAT. → 10.1 SUN.

Tokyo International Forum

AT 東京国際フォーラム

## Event Purpose

Global Festa Japan is one of Japan's largest public and private sector organization gatherings for forwarding international cooperation, social contribution and SDGs.

This year's theme is, "International Cooperation to Build the World — The More Friends the Better!"

The calamitous effects of climate change and the current war in the Ukraine can no longer be viewed as problems occurring in "somebody else's backyard." They are felt everywhere. It has therefore become increasingly incumbent upon the people of Japan to deepen their understanding of the world at large and join with other nations to meet the challenges faced by all. Japan's contributions to these efforts, including aid to developing countries, is vital not only for elevating Japan's credibility in the international community but in securing better cooperative relationships at a time when it is sorely needed. In response to this call for action, the Japanese government revised its overseas development assistance (ODA) outline in June, and is deeply committed to working with all stakeholders to craft solutions to the mounting developmental challenges we all face together.

This year marks the 50th anniversary of Japan-ASEAN friendship and cooperation, as well as the halfway point toward achieving the United Nations' SDGs by 2030. We hope that this Global Festa Japan 2023 will therefore play an important role in deepening Japan's understanding of the people, events and conditions existing beyond its own borders, and in inspiring greater international cooperation.
